

Vision Zero : share the vision – join the mission

Tuesday, 4 November
14:00 – 18:05
Vision Zero Stage, Hall 9

Vision Zero, developed by the International Social Security Association (ISSA) in 2017, has become established worldwide as the most successful strategy for preventing occupational diseases and fatal and serious occupational accidents.

Its concept is based on the conviction that all occupational accidents and diseases are preventable. At the heart of the concept are the “7 Golden Rules” and the Vision Zero Guides. These promote a human-centric approach to work, a positive leadership culture, participation and sustainability as a facet of corporate culture. Besides its value to companies from an ethical perspective, Vision Zero leads to higher productivity, better employee retention and long-term economic success. It aims to establish safety, health and well-being in the workplace as an integral part of day-to-day work.

The Vision Zero Days at the A+A provide an opportunity for the community of Vision Zero ambassadors to be expanded and implementation of the rules deepened with the use of practical examples ranging from positive leadership to machine safety.

Moderation:

Helmut Ehnes, ISSA Mining Section
Dr. Sven Timm, ISSA Information Section

14:00 Words of welcome/opening

Helmut Ehnes, ISSA Mining Section
Dr. Christian Felten, Basi

14:10 Prevention for Platform Workers and in the Gig Economy

Dr. Mohammed Azman, ISSA

14:30 Digitalisation

Joaquim Pintado Nunes, International Labour Organisation (ILO)

14:55 Vision Zero – Why continuing like this in occupational safety will get us nowhere
